Spencer Lindemuth

_____

Inspired developer with passion for creating engaging, easy to use websites. Use of Agile programming principles to be efficient and successful while remaining flexible in an ever changing industry. Leads with bright personality and 8 years of technical background in web design, graphic design, information technology, and systems administration.

TECHNICAL PROJECTS

CSSchool - [Github](#) | [Website](#)
A website designed to teach CSS basics to people of all ages in an interactive learning environment
- Utilized React to create a quiz-based learning environment teaching CSS to beginners to intermediate students
- Built feature allowing users to dynamically generate custom lessons through an HTML form
- Developed program to be seamlessly used on mobile using CSS media queries
- Constructed Rails backend API to serve lessons and handle JWT authentication

Hi-Lo - [Github](#) | [Website](#)
A turn based, two player game based on the popular card game Acey Deucey
- Created multiplayer game with pure javascript frontend and game logic
- Deployed app to accrue over 100 games played by more than 50 unique users
- Optimized game to play effortlessly on desktop and mobile

Artsy Fartsy - [Github](#) | [Website](#)
A website that allows users to create their own digital gallery of select works from the MET™ museum
- Designed React app using React-Draggable to place and persist pieces on gallery wall
- Employed MET OpenAccess API™ to find public domain works to browse and add to gallery
- Utilized a mix of traditional and on trend design elements to create an engaging experience for modern users

TECHNICAL SKILLS

Comprehensive knowledge in functionality and design using Javascript, React, HTML/CSS, Adobe Photoshop, Lightroom and XD. Backend developer in Rails with deployment and management experience on Heroku, Azure, Godaddy, Plesk, and Netlify.
